# Hemingway Construction

**BEST FAIRFIELD COUNTY  
SPEC HOME \$1 MILLION-  
\$2 MILLION**

For this Darien home, Hemingway Construction worked with Christopher Pagliaro of Pagliaro Bartels Sajda Architects. Reimagining the traditional box Colonial, they built a home with an open central hall, leaving the first floor as an airy common space with glass walls at the rear of the house. The family room opens into the kitchen, which has a custom hood with nickel strapping, pendant light from Circa Lighting, thick marble countertops and an adjacent desk space/messaging area.
